Research as Resistance, Second Edition
Revisiting Critical, Indigenous, and Anti-Oppressive Approaches

This second edition of Research as Resistance builds upon the resistance-based methods featured in the first edition and contributes to the recent resurgence of marginalized knowledges in social science research, drawing from Indigenous, feminist, and critical race scholarship. Bringing together the theory and practice of anti-oppressive research, this text emphasizes the importance of critical reflexivity and participatory methods. The contributors to this volume, including both emerging and established scholars, write from marginalized perspectives, explore a variety of methodologies, and address current theoretical issues in social justice research, discussing ontological and epistemological considerations within the field. This substantially revised and updated edition features new chapters that address narrative research, Foucauldian methods, queer theory, community action research, and insurgent Indigenous research. The text provides a solid foundation in specific methodologies while also highlighting their emancipatory potential. With a unique emphasis on both the theoretical foundations and practical applications of socially just research, this collection is an invaluable resource for senior undergraduate and graduate courses on anti-oppressive practice and research theory and methods in the social sciences.

Author Information

Leslie Brown
Dr. Leslie Brown is a Professor in the School of Social Work and the Director of the Institute for Studies and Innovation in Community-University Engagement at the University of Victoria. Her research interests include Aboriginal governance and community practice, liberatory research methods, and child welfare.

Susan Strega
Dr. Susan Strega is a Professor in the School of Social Work at the University of Victoria. Her areas of specialization include research methodologies, anti-oppressive practice, and child welfare.

Reviews

“This vitally important and comprehensive volume pushes ontological and epistemological boundaries by consistently highlighting the possibilities for research to transgress, contest, and resist dominant research paradigms. This new edition showcases the next wave of innovative methods and methodologies to uncover marginalized knowledges found in diverse spiritualities, philosophies, cultures, languages, and experiences. Authored by an impressive collection of feminist, critical race, and Indigenous scholars, the book interrogates the political and philosophical dimensions of knowledge production and is essential reading for anyone interested in undertaking critically reflexive, ethical, and anti-oppressive research to further a social justice agenda.”—Christine Morley, School of Social Work, Memorial University of Newfoundland

“This book goes beyond simply critiquing mainstream, positivist research in social work to offer diverse socially just research methodologies. Written by progressive social work educators, these chapters privilege anti-colonial and anti-oppressive frameworks, while not denying the challenges of conducting research through such frameworks. Of particular note is how the Indigenous contributors to this book highlight counter-stories to the colonialist documentation about us. Called ‘insurgent research’ by Adam Gaudry, such research helps to produce real benefits for Indigenous communities, which can, of course, have a positive impact on all communities.”—Cindy Baskin, School of Social Work, Ryerson University

“This vital and comprehensive volume pushes ontological and epistemological boundaries by consistently highlighting the possibilities for research to transgress, contest, and resist dominant research paradigms. This new edition showcases the next wave of innovative methods and methodologies to uncover marginalized knowledges found in diverse spiritualities, philosophies, cultures, languages, and experiences. Authored by an impressive collection of feminist, critical race, and Indigenous scholars, the book interrogates the political and philosophical dimensions of knowledge production and is essential reading for anyone interested in undertaking critically reflexive, ethical, and anti-oppressive research to further a social justice agenda.”—Susan Morley, School of Social Sciences, University of the Sunshine Coast

Table of Contents

Introduction: From Resistance to Resurgence, _Susan Strega_ and _Leslie Brown_

Chapter One: Becoming an Anti-Oppressive Researcher, _Karen L. Potts_ and _Leslie Brown_

Chapter Two: Emerging from the Margins: Indigenous Methodologies, _Margaret Kovach_

Chapter Three: Situating Anti-Oppressive Th eories within Critical and Difference-Centred Perspectives, _Mehmoona Moosa-Mitha_

Chapter Four: Our Community Action Research Project: A Blueprint for Resistance, _Jenny Holder_

Chapter Five: The View from the Poststructural Margins: Epistemology and Methodology Reconsidered, _Susan Strega_

Chapter Six: Narrative Research and Resistance: A Cautionary Tale, _Heather Fraser_ and _Michele Jaridom_

Chapter Seven: Honouring the Oral Traditions of the Ta't Mustimuxw (Ancestors) through Storytelling, _Qwul'ulth Yahmah (Robina Anne Thomas)_

Chapter Eight: AIDS, Men, and Sex: Challenges of a Genderqueer Methodology, _Elizabeth (Eli) Manning_
