Social Work Practice and the Elderly, 3rd Edition

This third edition of _Social Work Practice with the Elderly_ describes significant practice issues and current challenges facing gerontological social workers, who are working with the fastest growing demographic cohort in North America. Insightful and creative practitioners provide current accounts and case examples from their work in a variety of settings. The material includes both micro and macro practice and offers a focus on advanced specialty practice while also providing an advanced generalist model.

All the chapters have been rewritten and updated by adding related additional readings and websites. Six new chapters have been added on sensory impairment, HIV/AIDS, elder abuse, community-assisted living, rural elderly, retirement and volunteerism.

Author Information

Michael Holosko

Michael J. Holosko is Professor at the School of Social Work, University of Windsor. He has taught social work and nursing and has been a consultant in the human service and health field for the past twelve years in Canada, the United States and Europe. His specialty areas are clinical and program evaluation, administrative skills and stress management. He also serves on the editorial board for the _Journal of Health and Social Policy_. He has served on numerous boards of directors for a variety of human service agencies including Health and Welfare Canada's Research Advisory Committee._

Reviews

"A comprehensive text which covers the full range of practice skills and activities required for effective gerontological social work practice in the 1990s. It is very well written and clearly articulates practice settings in both Canada and the United States. Any practitioner working in this field should have a copy of this text on their desk."— John S. Wodarski, Ph.D., Associate Vice President, Research & Graduate Studies, University of Akron, Ohio._
