"The Public Metropolis" traces the evolution of Ontario government responses to rapid population growth and outward expansion in the Toronto city region over an eighty-year period. Frisken rigorously describes the many institutions and policies that were put in place at different times to provide services of region-wide importance and skilfully assesses the extent to which those institutions and policies managed to achieve objectives commonly identified with effective regional governance.

Although the province acted sporadically and often reluctantly in the face of regional population growth and expansion, Frisken argues that its various interventions nonetheless contributed to the region's most noteworthy achievement: a core city that continued to thrive while many other North American cities were experiencing population, economic, and social decline.

This perceptive and comprehensive examination of issues related to the evolution of city regions is critical reading not only for those teaching and researching in the field, but also for city and regional planners, officials at all levels of government, and urban historians.

The research, writing, and publication of this book has been supported by [the Neptis Foundation](<http://www.neptis.org/>).

Author Information

Frances Frisken

Frances Frisken is Professor Emerita and Senior Scholar, Division of Social Science (Urban Studies), at York University, Toronto. She has written widely on urban planning and policy issues and has also served as a policy advisor to government and community organizations and committees. Dr. Frisken is a former Chair of the Governing Board of the Urban Affairs Association and founder of the GTA Forum, an organization that brings together academics and urban professionals in the Greater Toronto Area to share research and ideas related to urban issues.

Reviews

"*"The Public Metropolis"* is essential reading for all urban and regional planners. They will see their work contextualized here in a way that is unprecedented in planning literature.... [T]he intelligent scholarship throughout this book offers strategically useful and timely perspectives for large cities and their regions attempting to make their way onto international, national, and sub-national agendas."

Beth Moore Milroy, PhD, FCIP Professor Emerita, School of Urban and Regional Planning, Ryerson University, Toronto
